A number of individuals indicated they had been erroneously been counted as absent (e.g., Noel Polk, Randy Little, Rich Raymond, Jason Loewg). The minutes were accepted as amended on a unanimous voice vote.

## **GUESTS**

President Wolverton introduced guests: Dr. Peter Rabideau, Provost; Mike Rackley, Head of Information Technology Services; and Ann Bell and Judy Spenser from Human Resources.

### **PETER RABIDEAU, PROVOST**

- Provost Rabideau welcomed all faculty.
  - Rabideau introduced Al Rankins as an administrative intern with his office. Rabideau referred to his handout (Transitions in Academic Affairs) to provide comparative data regarding faculty numbers. He mentioned several of the items in the handout: (a) Faculty resignations are comparative (Mean = 26 across the last 4 years) adding that this number is adjusted to the total number of faculty at the institution, (b) retirement, (c) promotion and tenure, (d) new faculty members, and (e) an increase in student enrollment (>17,000).
  - Rabideau stated that faculty retention activities include: (a) new faculty bus trip scheduled for 9/24/07, (b) mentoring for new faculty in all departments, (c) the revamped new faculty orientation, and (d) appointments with appropriate workload allocations.
-

- MSU has a record number of students and congratulated the deans and faculty for the smoothness of the adjustment.
- With regard to dean searches, two new deans are in place (e.g., Dr. Lynn Richardson in COBI, Dr. Donna at Meridian) with searches in Arts and Sciences, and Engineering underway.
- With regard to the budget, Rabideau reported: (a) 21 ½ tenure track faculty and 12 instructor positions have been added across campus; (b) the Library has obtained extra funding; (c) the summer and maymester sessions were static with regard to numbers, but summer enrollment had decreased in recent years so static numbers may indicate success; (d) the tuition incentive plan added revenue through SCHs in a number of majors (although exact numbers are yet unknown).
- Rabideau reported the following information items: (a) freshman activities are underway; (b) Art on Campus will focus on the Chapel, Library, and the lake near the Bryan Building (pictures were provided) and a visual arts center will be placed at the buildings on the edge of campus toward town; (c) IHL activities (e.g., Textbook Taskforce) and new programs such as the masters online courses and interdisciplinary studies have preliminary approval under the new procedures for new programs; and (d) he plans to continue his annual college visits including meetings with deans, associate deans, department heads and possibly with faculty.
- Questions posed to Dr. Rabideau:
  - Progress and status of the Dean of Graduate School – Rabideau responded that President Foglesong is working on this and has recently issued a statement in his State Gram. In response to comments that faculty had indicated that this should be a priority, Rabideau stated the President should speak for himself about the postponement. Additional concern was that the position has recently been conceptualized as a “part-time” position. Rabideau stated there are many configurations for the position across academia. Several senators urged that the past MSU activities/reports regarding the issue be considered.
  - Information regarding inconsistent Promotion and Tenure numbers in the handout – Rabideau indicated that some departments had requested one without the other.
  - In response to a request for information about the proportion of minority and international students represented in the growth in students on campus Rabideau indicated that MSU is near the top with regard to Historically White Institution in terms of minority enrollment. Rabideau stated the university is not doing as well with regard to numbers of minority faculty. He stated that the university has an a three year incentive package for new minority hires (i.e., 100%, 75%, 50%). The university has hired 4 to 5 new minority faculty.
  - Regarding the retirement buy-out, Rabideau stated that IHL has provided permission, but that President Foglesong is still considering the issue. It is expected that a decision will be made in 2 to 4 weeks.

### **MIKE RACKLEY, HEAD OF INFORMATION TECHNOLOGY SERVICES**

- Mr. Rackley referred to his handout and provided the senators information about the status of the security program and referred to OP 01.10. He stated the policy has four
-

components: (a) formation of a committee to oversee information security, (b) development of a response plan, (c) the security program, and (d) discussion recovery and business continuation plan. Mr. Rackley highlighted importance of individual responsibility and the training program for handling sensitive information. He stated the trainings will be conducted online or live, and will take about 20 minutes with 10 training modules. Training is expected to be required within 90 days.

- Questions posed to Mr. Rackley included:
  - In a request for clarification about website and email scans, Mr. Rackley indicated that there has been a scan for social security numbers and for incoming spam. He indicated that the anti-spam filter is voluntary. He stated that outgoing email is not typically scanned and the faculty are not being surveilled. He warned that faculty need to be vigilant for attachments which may contain harmful viruses, etc.
  - It was requested that faculty be added to the committee.
  - Concern for Banner in that it appears to struggle 2 to 4 times a year during heavy/peak times. Mr. Rackley responded that there is new Banner hardware on order.

### **ANN BELL AND JUDY SPENSER, FROM HUMAN RESOURCES**

Ann Bell and Judy Spenser were present to provide information and answer questions on the two policies in the Senate agenda packet: (a) the Criminal Background Screening , and (b) the Drug and Alcohol Policy. Ms. Bell indicated these were a joint effort between campus units and law enforcement personnel. She stated that the policies came about as the result of inquiries by campus units. President Wolverton stated that the Executive Committee will be working on these policies to make recommendations, with Senator Walter Diehl to head that effort. Wolverton opened the floor for questions about the policies. The following questions were posed:

- In response to a question as to whether these were current policy, Ms. Bell responded that they had been signed in January or February of this year, but implementation was not in place. President Wolverton stated they were OP and HRM policy and, therefore, would not come before Faculty Senate. He stated that no screening was in place and is awaiting faculty input. A committee had been formed to develop the policy, but faculty were not represented. Ms. Bell read a list of the individuals on the committee and stated that screenings were not being conducted currently.
- Discussion included:
  - The cost of the drug screening is to be absorbed by the individual's department.
  - The screening was for administrators (as stated by President Foglesong multiple times); however, department heads (included in the policy) were faculty.
  - The need for clear definitions (e.g., sensitive information and security sensitive position) and clarification of the penalty for violation of the drug and alcohol policy (i.e., termination or appropriate disciplinary action).

  - It was noted that President Foglesong has not met with Faculty Senate in some time. Wolverton stated that Foglesong had meetings with other individuals that prevented him from meeting with the senators.
